Destination:

Jamaica is the largest English-speaking island in the Caribbean and the third largest in the region. It covers a total surface of 10,991 km² and its width varies between 35 and 82 km. It is considered one of the most special places on Earth due to its rich culture, the racial mix of its people and their outlook on life. It is known for the rhythm and movement of people dancing to the reggae music that is played in the island's streets and bars. It is because of all this that it is considered "the biggest small island in the world". When visiting Jamaica, be sure not to miss the city of Kingston, the capital of Jamaica and the economic social and political centre of the island, the James Bond and Cayo Bobby beaches and the Spanish Town to get a true feeling for the country's culture.
