Dedicated to Christopher Columbus, the monument refers to the famous story detailed for the first time in "Voyages of De Bry" – Frankfurt – 1594, when Columbus was looking to finance one of his expeditions. During his attempt to find a financier, Christopher Columbus asked his audience if they could make an egg stand upright. Several traed and failed before Columbus finally took the egg, cracked the bottom a bit and placed it back down, allowing it to stand fully upright. After his successful attempt, Columbus remarked, "NEW ways have been found to reach our objectives.
